

## COMMERCIAL FLEET TIRE SERVICE TRUCK

# STELLAR® 313-100

## TECHNICAL SPECIFICATION GUIDE

**The Stellar® 313-100 commercial fleet tire service body utilizes the latest aluminum body design and construction techniques combined with a superior fuel economy chassis to give you the most productive and cost effective commercial fleet service truck in the market today.**

The Stellar® 313-100 commercial fleet service truck is designed to give you the greatest fuel economy of any commercial fleet service truck. Stellar does this by utilizing the latest manufacturing and design techniques accompanied by strong and lightweight aluminum construction.

The Stellar® 313-100 weighs approximately 1,300 pounds. With a fully accessorized truck you are capable of hauling close to 2600 pounds of payload. With a load bed storage area of 86" long x 84" wide with 56" high racks the Stellar® 313-100 has maximum tire storage. Plus, it offers three vertical storage compartments to store tools, tubes, and components for quick access to get you job done fast and efficiently.
