**SPECIFICATION INFORMATION**

- **Crane Rating:** 11,500 ft-lbs (1.59 ton-meters)
- **Standard Boom Length:** 7’ (2.13 m) from CL of Crane
- **Boom Extension:**
  - 1st Stage: Hydraulic 48” (121.9 cm)
  - 2nd Stage: Manual 48” (121.9 cm) / Optional Hyd.
- **Max. Horizontal Reach:** 15’ (4.57 m) from CL of Crane
- **Maximum Vertical Lift:** 17’ 8” (5.40 m) (from crane base)
- **Boom Elevation:** -10º to +80º
- **Stowed Height:** 31.2” (79.2 cm) (crane only)
- **Mounting Space Required:** 18” x 15” (45.7 x 38.1 cm)
- **Approximate Crane Weight:**
  - 3315 (electric):
    - 2H: 940 lbs (426 kg)
    - 1H1M: 860 lbs (390 kg)
  - 3315 (hydraulic):
    - 2H: 850 lbs (386 kg)
    - 1H1M: 770 lbs (349 kg)
- **Controls:** Radio control standard for all functions (Stellar® CDT™ control system optional)
- **Winch**
  - **Rope Diameter:** 1/4” (0.63 cm)
  - **Line pull speed:** 30 ft/min (9.1 m/min)
  - **Max. single part line:** 1,600 lbs (725 Kg)
  - **Max. double part line:** 3,200 lbs (1450 Kg)
- **Rotation:** 370 degree power (worm gear)
- **Lifting Capacities:**
  - 3,200 lbs @ 3’ 7” (1451 kg @ 1.10 m)
  - 765 lbs @ 15’ (345 kg @ 4.6 m)
- **Power Supply Required:**
  - 12V power unit: 2 gpm @ 2,600 psi
    - (7.6 lpm @ 179 bar)
  - PTO & pump: 3 gpm @ 2,600 psi
    - (11.4 lpm @ 179 bar)
- **Min. Rec. Chassis (GVRW):** 10,500*

**DEFINING CHARACTERISTICS**

- **Radio Control System**
  - Every electric, on/off, or proportional 3315 comes standard with a radio remote control. Stellar is the market leader with standard radio remote controls.

- **Stellar® CDT™ (Crane Dynamics Technology™)**
  - Standard on 3315 proportional hydraulic crane, the Stellar CDT control system is revolutionary to the telescopic service crane market and EXCLUSIVE TO STELLAR. This system features capacity alert to the handheld crane remote and also features a Safe Mode to keep the crane and operator safe should a load indicating device fail to operate correctly.

- **Internal Extension Cylinder**
  - New to the 3315 crane is our new internal cylinder extensions system. Designed to the same standards of our larger cranes, you will find the looks and performance of our extension booms second to none.

- **Full Hydraulic Extension**
  - The 3315 crane offers an optional boom configuration of two hydraulic boom extensions. The 3315 cranes come standard with a one hydraulic, one manual boom configuration.

- **Market Leading Boom Articulation**
  - The Stellar 3315 crane offers -10 degrees to +80 degrees. This gives the operator both easy reach to snatch block stowing and the best ability to load items into the load bed.

- **Quick Release Snatch Block Stow**
  - The Stellar quick release snatch block stow is installed on the underside of the boom to easily stow your snatch block after use. Its unique design gently releases the snatch block for use when the boom is raised at close to 60 degrees to ensure a safe and orderly deployment.

- **Planetary Winch**
  - The planetary winch on every crane manufactured by Stellar was designed to match the capacity and hydraulic control system. It lifts the maximum crane load and offers the smoothest and fastest speeds in the market today to help keep your productivity at max levels.

- **Strong Rotation System**
  - Stellar uses a durable rotation system with a cast iron base and an internal mechanical stop to provide the most durable rotation system found in the industry.

- **Counterbalance Valves**
  - Each cylinder on the Stellar 3315 crane feature counterbalance valves to prevent unintended cylinder movement should a hose break.

- **Greaseable Pivot Bushings**
  - Each pivot pin location on the 3315 crane includes bushings and grease zerks to provide for years of use.

- **Hexagonal Booms**
  - Stellar Industries made the hexagonal boom design famous in the telescopic service crane market. This design provides for a stronger and better aligning boom than competitive square boom design.

- **Bar Style Anti-Two Block**
  - The 3315 crane is equipped with a low profile bar style anti-two block system that allows for easy access to the tightest lifting locations.

*NOTE: All Stellar cranes meet ANSI B30.5 and OSHA 1910.180 specifications.
Specifications subject to change without notification.

*Guideline for Stellar® TMAX™ package with curbside rear crane.
Consult with Stellar for other installations.

**GEOMETRIC DIMENSIONS**

**ROTATIONAL CLEARANCE**

- Ø47.20in [3.93ft] 12V
- Ø34.63in [2.89ft] HYD

**DIMENSIONS**

- 31.15in [2.60ft]
- 21.00in [1.75ft]
- 15.75in [1.31ft]
- 9.211in [7.68ft]
- 108.85in [9.07ft]

Weight of load handling devices are part of the load lifted and must be deducted from the capacity.

Maximum 1 - part line capacity is 1600 lbs. (725 kg). For greater loads, use 2 - part line.
NEW TMAX™ Service Bodies

**TMAX1™ Service Body**

Applicable Chassis: 16,000 – 19,500 GVWR
(19.5 tire size)

Compatible Crane Models: 3315
4421
5521
7621
7630

Cab to Axle: 84” (213.36 cm)
Body Length Nominal: 133” (337.82 cm)
Body Height: 44” (111.76 cm)
Body Width: 94” (238.76 cm)
Compartment Depth: 22” (55.88 cm)
Floor Width: 50” (127 cm)
Net Weight: 3220 lbs (1460.37 kg)
