PROPANE SERVICE, SIMPLIFIED

Stellar® TMAX™ Propane Service Trucks Make Lifting and Hauling Easy

PRECISION HANDLING. MAXIMUM PERFORMANCE.

The Stellar TMAX Propane Service Truck is built to make propane installation and service more productive. Designed with dedicated space for everything you need in the field, it can haul one 1,000-gallon or two 500-gallon propane tanks — so you can work efficiently.

Smart Storage & Maximum Payload

Street-side and curb-side compartments keep tools organized. Aluminum sidepacks reduce weight and resist corrosion, increasing payload and durability. Drill-free mounting rails allow easy accessory installation.

Strength You Can Count On

The propane service truck supports 7,000-lb cranes. Its torq-isolator crane support transfers lifting stress to the stabilizers and subframe, ensuring long-term durability.

Precision Lifting & Remote Control

A truck-mounted crane simplifies tank handling, while CDTpro™ and CDT™ Radio Remote Control Systems ensure precise operation.

TMAX PROPANE SERVICE TRUCK

- Hauls one 1,000-gallon or two 500-gallon propane tanks
- Available in either 12' or 14' aluminum or steel bodies
