

STELLAR INDUSTRIES

STELLAR[®] TELEMATICS

Stellar[®] Telematics consists of Fleet View for fleet managers and E-Link[™] Mobile for operators. With Fleet View, fleet managers can optimize their fleets with real-time and historical data beyond the chassis. Having access to crane usage, load trends, compressors usage, and more helps fleet managers make informed decisions like never before.

TELEMATICS BEYOND THE CHASSIS.

FLEET VIEW

OPTIMIZE YOUR FLEET

- Use past usage to help determine what size crane is needed
- Understand your equipment's lifecycle with data
- View upcoming preventative maintenance
- Right-size your fleet for application and location with data
- Detailed crane and compressor usage
- Insights into operator behavior

E-LINK[™] MOBILE

EMPOWER OPERATORS AND INCREASE UPTIME

- Control equipment from a mobile device
- View upcoming preventative maintenance
- View real-time diagnostics
- Access technical manuals
- One-touch customer service

REQUIRED EQUIPMENT:

- Stellar[®] CDTplus[™] heavy duty crane

RECOMMENDED EQUIPMENT:

- American Eagle[®] Air Compressor
- Stellar[®] E-Link[™]
